

<b>COMMUNICATION</b>  Address to: Mail Stop Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450	Docket No.	UCAL-243
	Application No.	10/723,589
	Confirmation No.	7570
	Filing Date	November 25, 2003
	Examiner	Royds, Leslie A
	Group Art Unit	1614

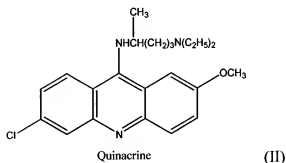

Sir:

This communication is responsive to the Notice of May 17, 2007 and the prior Office Action of March 8, 2007.

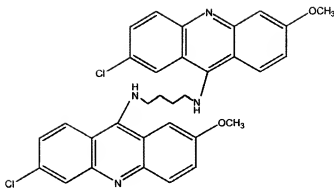

Within the response filed on March 19, 2007 applicants indicated that they elected the species of claim 3 shown as species (a). The structure of that species is shown below and specifically referenced in the response.

Within that response applicants also indicated that within each of the “R” groups of the elected species the quinacrine molecule would be substituted. The structure of quinacrine is shown in claim 4 and provided below and was specifically referenced in the responses filed on March 19, 2007.

Accordingly, when the linking group of species (a) shown in structure I above has the “R” substituents substituted with quinacrine the following molecule is provided.

(III)

It is applicants' position that the prior response was responsive in that it provided specific detailed instructions with respect to the structure of the elected species. Nothing in 37 C.F.R. or the MPEP requires applicants to do more than what was done. Still further, the structures requested in the Office Action were specifically references in the response. Thus, it is applicants position that no extension of time should be required and that the examination should continue based on the prior response. Irrespective of this position the structure III provided above is the elected species.

In the event fees are due or extensions are required applicants petition for the required extension and authorize the Commissioner to charge the cost of such fees including extension fees to our Deposit Account 50-0815, order number UCAL-243.

Respectfully submitted,  
BOZICEVIC, FIELD & FRANCIS LLP
